

## CONTACT "denkmal" – International Cooperation Exchange for Heritage Conservation & Museum Equipment – now featuring MUTEC

As part of denkmal 2026, the CONTACT "denkmal" event will take place on **6 November 2026 from 1.00 p.m.** The International Cooperation Exchange, together with MUTEC, will bring national and international stakeholders in the fields of heritage conservation, restoration and museum technology together for targeted business ventures for the first time.

denkmal is Europe's leading trade fair for heritage conservation, restoration and the renovation of older buildings. Since its premiere in 1994, it has been held every two years in Leipzig. It is aimed at architects, planners, conservators, craft businesses, heritage authorities and building owners.

At the same time, MUTEC, as an international trade fair for museum and exhibition technology, brings together companies specialising in lighting and display technology, exhibition design, and services for museums and cultural institutions.

Together, the two trade fairs form a high-calibre platform for dialogue between architectural heritage, restoration and museum technology.

The International Cooperation Exchange CONTACT "denkmal" 2024 was attended by companies and institutions from Germany, Morocco, Poland, Italy, the Czech Republic, Hungary, Spain and Switzerland, amongst others.

Following the excellent response to previous cooperation exchanges, the event will continue on 6 November 2026 and, for the first time, will be expanded to include MUTEC. The Leipzig Chamber of Crafts and Leipziger Messe are organising CONTACT "denkmal" in partnership with the Dresden Chamber of Crafts.

### Services offered by the Cooperation Exchange
